CAMBRIDGE INTERNATIONAL EXAMINATIONS GCE Ordinary Level

MARK SCHEME for the October/November 2013 series

5070 CHEMISTRY

5070/42

Paper 4 (Alternative to Practical), maximum raw mark 60

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

	Page 2		Mark Scheme Syllabus						
			GCE O LEVEL – October	/November 2013	5070	42			
1	(a) 28, 23 (1) 5 (1)								
	(b) (i)	[1]							
	 (ii) vertical line labelled ΔH must go to same level as products (1) horizontal line below reactant line, ignore any labelling (1) (horizontal line above reactant line i.e. endothermic, 1st mark only can score 								
	(c) (i)	blue	ignore any initial colour) (1)			[1]			
	(ii)	pH m	eter/pH or universal indicator	/pH paper (1)		[1]			
	(iii) 10–14 (1)					[1]			
						[Total: 8]			
2	(a) nitrio	c (aci	I), HNO ₃ (1) (both)			[1]			
	(b) heat/warm/evaporate/boil/leave in sun (1) to crystallisation point/saturation point/evaporate some (but not all) of the water/ leave solution to cool/leave to crystallise (1) wash and dry crystals (1)								
	. , . ,	28/80	mass of NH ₄ NO ₃ = 80 (1) × 1000 = 350 (g) (1) 28) × 24 = 300 (dm ³) (1)			[2] [1]			
	(d) amr	moniu	m sulfate, (NH ₄) ₂ SO ₄ (1)(both)		[1]			
		m witl	ı (aq) NaOH (1) litmus blue OR <u>gas</u> turns litm	nus blue (1)		[3] [Total: 11]			
3	(b) (1)					[Total: 1]			
4	(d) (1)					[Total: 1]			
5	(a) (1)					[Total: 1]			
6	(b) (1)					[Total: 1]			

	Page 3				Mark Scheme	Syllabus	Paper	
				GCI	E O LEV	EL – October/November 2013	5070	42
7	(a)	1.65(g)(1)						[1]
	(b)	Fe(III) (1)						
		(ii)	hydr	rogen (1)			
		pops in a flame/lighted splint (1)						
	(c)	(ii) green/colourless (1) (ii) purple/pink (1)						
								[2]
	(d)	27.8 0.0 27.8)	32.1 5.7 26.4	47.3 20.7 26.6	1 mark for each correct row or column to benefit of candidate (3)		
		mean titre = $26.5 (1) \text{ cm}^3$						
	(e)	0.00	0053	(moles)	(1)			[1]
	(f)	0.00	0265	(moles)	(1)			[1]
	(g)	0.0265 (moles) (1)						[1]
	(h)	1.484 (g) (1)						[1]
	(i)	89.7–90.(0)(%)(1)						[1]
								[Total: 15]
								•
8	(a)	colourless solution (1)						
	(b)	(i) white ppt (1) soluble in excess(1)						
	(c)	(i) white ppt , insoluble in excess (1) (both)						
	(d)	Ba(NO ₃) ₂ or BaC l_2 (1) + HC l or HNO ₃ (1) (incorrect formula negates correct name and vice versa) white ppt (1) (dependent on use of barium salt) conclusion A l_2 (SO ₄) ₃ (1)						[8]
