

O Level Sociology (2251)

Frequently Asked Questions

Can students take dictionaries into the examination?

Candidates may take a simple translation dictionary into the examination if English is not their first language.

Is there a preferred order for teaching O Level Sociology?

No, although the basic syllabus order is often followed. To a large extent it depends on the individual department or teacher and the preparation of the students in the previous school years.

How many hours contact time do you recommend for O Level Sociology?

There is no set rule. Over a two-year course, some 2 to 2.5 hours per week of lessons should be sufficient. Students will need to do extra work in their own time to supplement this.

Can I teach the O Level course in one year?

It has been known for Centres to teach O Level Sociology in one year on 4 x 70 minute lessons per week. Consequently, this is only to be considered when candidates are taking a fairly small number of O Levels in total, say four or five. If the pupils have good prior knowledge of some topics, it should be possible.

What support materials are available?

- Syllabus
- O Level Sociology Standards Booklet (this contains student answers to O Level questions along with the mark scheme, marks and comments of a senior examiner)
- Past question papers and mark schemes

All the above are available from CIE Publications and the Teacher Support website.
