TIME 3 hours

INSTRUCTIONS TO CANDIDATES

Please see Page 2.

INFORMATION FOR CANDIDATES

All dimensions are in millimetres.

The insert contains the orthographic drawing.

This question paper consists of 3 printed pages, 1 blank page and an insert.

The pictorial drawing shows a pair of bookends.

You are required:

- (a) to make one of the bookends to the dimensions shown in the drawing;
- (b) to shape part **A** to complete the overall design;
- (c) to lightly clean off all pieces with a finely set smoothing plane before final assembly.

Candidates are reminded that a significant number of marks are awarded for the shaping shown and the additional shaping of part **A**.

The following pieces of wood, previously planed, are to be used:

- One piece 165 long planed to 111 wide and 15 thick (Part A).
- One piece 115 long planed to 111 wide and 21 thick (Part B).
- One piece 120 long planed to 50 wide and 21 thick (Part C).
- One 1" (25 mm) No. 6 countersunk wood screw.

General Notes

- 1 A second supply of wood is **not** allowed. If you make a mistake do your best to work as near as possible to the details given in the drawing. All pieces of wood should be finished to the correct lengths and their ends neatly trimmed with a plane.
- 2 Any dimensions omitted are left to your discretion.
- 3 Attempt to finish all parts of the test but remember that a partly completed piece of good quality may gain more marks than one which is complete but inaccurate or poorly finished.
- 4 You may use any of the ordinary hand tools but the use of adhesives, glasspaper, files, rasps and scrapers is not allowed.
- 5 Write your Name and Examination Number boldly and clearly on **each** of the pieces of wood in capital letters and numbers 6 mm high. If you do not complete the test, you must nevertheless return all the wood, with the exception of the waste.
- 6 Assemble your work before handing it to the Supervisor.

A PAIR OF BOOKENDS
