## Apply VAT where appropriate at $\mathbf{1 7 . 5 \%}$ throughout the paper.

1. (a) Use the information below to make the entries in the ledger accounts of the partnership Maxwell and Bell.

Ledger balances at 1 May 2009:

| Bank Overdraft | $£ 1,000$ |
| :--- | :--- |
| Equipment | $£ 5,500$ |
| M Faraday (Creditor) | $£ 800$ |

7 May Bought goods $£ 200$ (plus VAT) from Lavoiser on credit 12 May Purchased equipment from Faraday on credit for $£ 8,000$ (plus VAT). A cheque for $£ 2,000$ was paid to Faraday with the balance on credit
18 May Paid for repairs to equipment by cheque for $£ 120$ (plus VAT)
22 May Returned faulty equipment to M Faraday for $£ 80$ (plus VAT)

(b) Explain the meaning of the term double entry.

- For every debit there is a credit entry (2)
- For each transaction the total debited should be the same as the total credited (2)
(Any one)

| Marks |  |
| :---: | :---: |
| $\mathbf{K U}$ | $\mathbf{H I}$ |
|  |  |

(c) Maxwell and Bell are considering forming a plc. Justify one advantage of the proposed change in relation to each of the points below.
(i) Capital invested

- This would be much greater/more money (2) (potentially) as a plc as there are far more individuals to invest in the business (2)
(ii) Borrowing
- Borrowing may be easier to arrange with banks (2)
- Borrowing may be cheaper (2) - lower rate of interest if borrowing a larger amount (2)
- Greater variety of borrowing is possible (2) - eg debentures, long term borrowing (2)
- A larger sum may be borrowed (2)
(Any one)
(iii) Owners' liability
- Unlike a partnership liability is limited (2)
- Shareholders would only lose at most their share holding in the ple (2)
- Partners' personal assets are at risk in the event of bankruptcy but not in the case of a plc (2)
(Any one)

Less 10\% Trade Discount

Add VAT
£846.00
£84.60 (1)
£761.40
£126.58 * (3)
£887.98 (1)
*£761.40 x $0.05=£ 38.07$ (1)
$£ 761.40-£ 38.07=£ 723.33$ (1)
$£ 723.33 \times 0.175=£ 126.58$ (1)
(b) Frege plc sells goods on credit. Describe one advantage and one disadvantage, to Frege plc, of operating this policy.

Advantage

- Develop customer loyalty (2)
- A greater number of customers (2). Encourages more sales (2)
(Any one)
Reject: customers have more time to pay (0) unless followed by something to indicate how this will benefit Frege plc
Reject: attract customers by offering trade discount (0)

## Disadvantage

- May cause cash flow problems (2)
- Debtors may become bankrupt (2)
- May lead to bad debts (2)
(Any one)

| Marks |  |
| :--- | :--- |
| $\mathbf{K U}$ | $\mathbf{H I}$ |
|  |  |

(c) Name the document used in the transaction on 21 May and state its effect on the Gross Profit of Frege plc.

- Credit note (1)
- Gross profit would fall (2)
(d) Explain why a business may need to reconcile the balances on the Bank Statement and Bank Account.
- To explain why their own bank balance is different from that on the bank statement (2)
- To ensure an error has not been made by the bank (2)
- To ensure an error has not been made in your own bank account (2)
- Owing to delays in the banking system - unpresented cheques (1) and lodgements (1)
- Items recorded on the bank statement but not included in the business' bank account (2) eg standing order (1), direct debit (1), charges (1), BGC (1) etc maximum 2 examples

| $\mathbf{K U}$ | HI |
| $\mathbf{3}$ |  |
|  |  |

3. Alistair Milestones, a sole trader, discovered his Trial Balance failed to agree. The debit column exceeded the credit by $£ 81$. On checking his ledger accounts, he discovered the following errors.
(1) A payment of $£ 92$ for rent had been correctly entered in the Bank Account but was entered as $£ 29$ in the Rent Account
(2) Discount received for $£ 12$ had been entered on the wrong side of the Discount Received Account
(3) An invoice received from B Skinner, a supplier, for $£ 120$ (including VAT) has been omitted from B Skinner’s account only
(a) (i) Open the required account to make the Trial Balance agree.
(ii) Make the entries in this account only to correct the errors.

| Account | me: Suspense (1) |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Date | Details | Dr |  | Cr |  | Balan |  |
|  |  | £ | p | £ | P | £ | p |
| 30 April | Balance |  |  | (1) 81 | 00 | 81 | 00 |
|  | Rent |  |  | (2) 63 | 00 | 144 | 00 |
|  | Discount Received | 24 |  | (2) |  | 120 | 00 |
|  | B Skinner | 120 | 00 | (2) |  | - |  |
|  |  |  |  |  |  |  |  |

(b) Explain why the Bank Account can be either a debit or credit entry in the Trial Balance.

- If the bank is an asset (1)/there is money in the bank (1) it will have a debit balance (2)
- If it is an overdraft (1)/money is owed to the Bank (1) it will have a credit balance (2)
(c) Explain why capital expenditure should not be included in the Profit and Loss Account.
- Only revenue expenditure should be recorded (2)
- Capital expenditure would give an unrealistic profit/loss figure (2)
- It may lead to poor decisions (2) - eg raising prices in the mistaken belief this is necessary as the business has a loss because it wrongly included capital expenditure (2)
- Capital expenditure is recorded in the Balance Sheet (2)
- Capital is expenditure on fixed assets (2) which last longer than a year (2)
(Any 2)

| :---: | :---: |
| $\mathbf{K U}$ | HI |
|  |  |

(d) Suggest 2 sources of finance, other than a bank loan, Alistair Milestones could use to expand. Outline one advantage and one disadvantage of each source. (Outline different advantages and disadvantages for each source).

| Source | Advantage | Disadvantage |
| :---: | :---: | :---: |
| $\begin{aligned} & \text { Grant } \\ & \text { (not lottery) (1) } \end{aligned}$ | - Do not need to repay (2) <br> - No interest repayments (2) | - Time consuming to apply (2) <br> - May not be successful (2) <br> - May have to wait a considerable time for response to application (2) <br> - Conditions may have to be met (2) |
| Loan from family/friend (1) | - Simple to arrange (2) <br> - Possibly greater flexibility in repaying (2) <br> - Possibly lower or no interest charge on loan (2) | - Interest may have to be paid (2) <br> - Loan must be repaid (2) <br> - Could cause family/friend tensions about business (2) |
| Mortgage/ remortgage (once only) (1) | - Relatively simple to arrange (2) <br> - Money can be made available relatively quickly (2) <br> - Cost of repayment known in advance (2) <br> - Could be spread over a longer period of time, eg 25 years (2) <br> - Access to a large sum of money (2) | - Interest rate may be variable (2) <br> - Additional expense (2) <br> - Possible reduction in profits (2) <br> - Must be repaid (2) <br> - May not be enough (2) |
| Personal savings (1) | - Easy to arrange (2) <br> - No repayment costs (2) | - Heavier commitment (2) <br> - Opportunity cost (2) |
| Partnership (1) | - Considerably larger capital possible (2) <br> - Do not need to repay (2) | - Any profits will have to be shared (2) <br> - Time consuming to organise (2) <br> - Still unlimited liability (2) |
| Plc (1) | - Considerably larger capital possible (2) <br> - Do not need to repay (2) <br> - Limited liability (2) | - Any profits will have to be shared (2) <br> - Time consuming to organise (2) <br> - Expensive to launch (2) |

(b) The Board of Directors of Rorty plc have a policy of retaining profits in the business.
(i) Explain why the Board of Directors operate this policy.

- Funds for expansion (2) at no monetary cost (2)
- No interest, or dividends have to be paid for profits retained (2)
- To set aside resources for any unforeseen events (2)
- To allow the purchase of fixed assets (2)
- To reduce chance of liquidity problems (2)
(Any one)
(ii) Explain one advantage and one disadvantage of this policy to the shareholders.

## Advantage

- Expansion of business (0) - potential higher profits (2)
- Greater stability (2)
- More profits available for distribution in future as dividends (2)
- An increase in the share price (2) - potential capital gains (2) (in the longer term - as a result of higher profits)
(Any one)

## Disadvantage

- Lower dividends (2) (in the short term)
- Market value of shares may fall (2) (in the short term if dividend is lower than expected)
- If forced to sell shares a loss on capital invested may result (2)
(Any one)
(c) Explain the difference between bad debts and provision for bad debts.
- Bad debts is a past event (2) - the money has been lost (2)
- Provision for bad debts is an attempt to anticipate bad debts in the future (2)
- Bad debts are an expense (2)
- Provision for bad debts can be reduced (2); this adds to the profit
- Bad debts are always deducted from the profit (2)
- Provision for bad debts are deducted from debtors in the balance sheet (2)
- Bad debts do not appear in the balance sheet (2)

Any Bad Debt explained - 2 marks
Any Provision for Bad Debt explained - 2 marks

| 2 |  |
| 2 |  |

5. The following data is taken from the books of Peter Lyola.

|  | 2008 | 2009 |
| :--- | ---: | ---: |
|  | $£$ | $£$ |
| Current Liabilities | 5,000 | 7,000 |
| Closing Capital | 106,000 | 126,000 |
| Fixed Assets | 99,000 | 125,000 |
| Net Profit | 26,000 | 20,000 |
| Current Assets | 12,000 | 8,000 |
| Opening Capital | 80,000 | 106,000 |

(a) Use the data above to calculate appropriate ratios for the 2 years.

|  | 2008 | 2009 |
| :---: | :---: | :---: |
| Current Ratio | $\begin{align*} & \mathbf{( 1 )} \\ & 12,000 / 5,000 \\ &= 2.4: 1 \quad(\mathbf{1})  \tag{1}\\ & 2: 1(1) 1: 0.42 \end{align*}$ | $\begin{aligned} & 8,000 / 7,000 \\ & =1.14: 1 \\ & 1: 1(1) 1: 0.88(1) \\ & 1: 0.9(1) \end{aligned}$ |
| RCI | $\begin{aligned} & \quad(\mathbf{1}) \\ & \frac{26,000}{80,000} \times 100 \\ & =32.5 \% \\ & 33 \%(1) \end{aligned}$ | $\begin{aligned} & \frac{20,000}{106,000} \times 100 \\ & =18.87 \% \\ & 19 \% \text { or } 18.9 \% \end{aligned}$ |

(b) Comment on any variation in the ratios between the years and suggest why the change may have occurred.

## Current Ratio

- There has been a deterioration in the liquidity position (2)
- Purchase of fixed assets (2)
- Moved from a situation where current liabilities can be met with ease (2) to one where it may be very difficult to meet them (2)
- Current assets have dropped significantly (2); current liabilities have increased (2). This may be because of not keeping sufficient money in the bank to pay debts (2)
Reject: they have more liabilities (0)
Not: up or down
Any suitable comment - 2 marks
Any suitable reason for change - 2 marks

## RCI

- There has been a dramatic deterioration on the profit as a percentage of the capital invested at the start of the year (2)
- Despite the business expanding (capital increasing by $£ 26,000$ ) (2) the net profit has declined by $£ 6,000$ (2)
- This could have been caused by a number of factors: an increase in selling price resulting in a significant fall in sales (2); an increase in the cost of purchases (2) and or expenses (2); a slow down in the economy (2); more competition etc (2)

Any suitable comment - 2 marks
Any suitable reason for change - 2 marks
(c) Suggest 2 other ratios that might be used to analyse the performance of the business and explain the importance of each.

- Gross profit ratio (1) informs the business how successful it is at buying and selling the product (2) - compared to previous years (2) and similar businesses (2); shows how much out of every $£$ of sales is profit (2)
- Net profit ratio (1) informs the business how successful it is at controlling its expenses (2) - compared to previous years and similar businesses (2)
- Rate of stock turnover (1) informs the business how successful it has been at moving its stock (2) - compared to previous years and similar businesses (2)

Suggested ratio $2 \times 1$ mark each
Importance of ratio $2 \times 2$ marks each

| Marks |  |
| :--- | :--- |
| $\mathbf{K U}$ | $\mathbf{H I}$ |
|  |  |

(d) "When 2 firms are in the same industry, the one with the largest net profit is not necessarily the most successful." Explain this statement.

- The absolute net profit can be misleading (2)
- What matters is the net profit relative to turnover (2) and capital invested (2)
- A small business may have a much higher net profit ratio (2) and RCI than a much larger business (2). However the larger business' net profit may be significantly larger than that of the smaller business (2)
- The business with the largest net profit may have liquidity problems (2)
- Examples of the above points would be acceptable (2)

| Marks |  |
| :---: | :---: |
| $\mathbf{K U}$ | HI |
|  |  |

6. Godel’s Trading, Profit and Loss Account for the year ended 30 April 2009 is shown below:

|  | $£$ |
| :--- | ---: |
| Sales | 50,000 |
| Less Cost of Goods Sold | 20,000 |
| Gross Profit | 30,000 |
| Less Expenses | 8,000 |
| Net Profit | 22,000 |

(a) Using the above information, and the notes below, prepare Godel's estimated Trading, Profit and Loss Account for the year ended 30 April 2010.

- It is anticipated that Sales will increase by $10 \%$
- The Gross Profit ratio will be the same as 2009
- $£ 5,000$ will be received for renting out property
- Existing expenses will increase by $25 \%$

In addition:

- a bonus of $10 \%$ of any sales above $£ 50,000$ will be paid to the sales team.
- a bank loan of $£ 2,000$ will incur interest of $8 \%$ per annum.

Trading, Profit and Loss Account
for year ended 30 April 2009

|  | £ £ |  |
| :---: | :---: | :---: |
| Sales | 55,000 | (1) |
| Less cost of Goods Sold | 22,000 | (1) |
| Gross Profit | 33,000 | (2) |
| Rent received | 5,000 | (1) |
|  | 38,000 |  |
| Less Expenses | 10,000 (1) |  |
| Sales Bonus | 500 (2) |  |
| Bank Interest | 160 (1) |  |
|  | 10,660 |  |
| Net Profit | 27,340 | (1) |

(b) Name one other financial statement that might be prepared to help the business plan for the future. Explain 2 ways this would assist the business.

- Cash Budget (1)

Assist the business:

- Help them to decide when it would be an appropriate time to buy new fixed assets (2) - to avoid creating any liquidity problems (2)
- Identifies when it will be necessary to arrange a bank overdraft (2) - this will allow this to be negotiated prior to the event (2)
- To let them know opening (1) and closing balances (1); identify when they are short of cash (2); identify what they spend too much on (2); can see estimated income (2) and expenditure (2) max 2 ; help them consider when to cut down on purchases/expenses (2); accept money coming in/out of business (2)
- Identify if cash resources are growing too high (2). Allow consideration of how the funds can be employed more profitably (2)
Reject: plan for the future (as included in the question)
Any 2 points of explanation - 2 marks each
Godel is also treasurer of the local badminton club. The only financial record he prepares is in the form of a Receipts and Payments Account.
(c) (i) Explain why this is an unsatisfactory situation.
- The Receipts and Payments Account only contains cash/bank transactions (2)
- Does not show adjustments (2) for prepayments (2) and accruals (2)
- It gives no indication of profitability of Club (surplus/deficit) (2)
- Does not show change in value of Fixed Assets (2)
- Does not show what the Club is worth (2)
- Does not cover all financial areas (2)

Any valid explanation - 2 marks
