NATIONAL QUALIFICATIONS 2007 THURSDAY, 10 MAY 1.15 PM - 2.15 PM

CRAFT AND DESIGN STANDARD GRADE Foundation Level

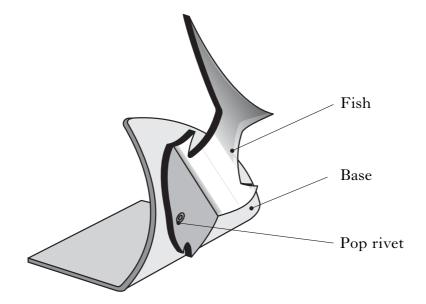

Fill in these boxes and read what is printed below.	
Full name of centre	Town
Forename(s)	Surname
Date of birth Day Month Year Scottish candidate number	Number of seat
1 Answer all the questions.	
2 Read every question carefully before you answer.	
3 Write your answers in the spaces provided.	
4 Do not write in the margins.	
5 All dimensions are given in millimetres.	
6 Before leaving the examination room you must give not, you may lose all the marks for this paper.	e this book to the invigilator. If you do

ATTEMPT ALL QUESTIONS

1. A fishing trophy made from acrylic is shown below.

(a)	Acrylic	is a thermoplastic.
	Tick (✓) the statement that describes a thermoplastic.

It is magnetic

☐ It conducts electricity

☐ It rusts when left outside

☐ It can be heated and re-shaped

(b) The shape of the fish was cut from card to help with the marking out.

Tick (\checkmark) the name given to this card shape.

Former

Template

Mask

___ Jig

U

1

(c)		tool shown below was used to cut out the fish shape. (*\) the name of this tool.	
		Hacksaw	
		Tenon saw	
		Coping saw	
		Panel saw	
d)	The	file shown below was used to shape the acrylic.	
	Tick	$\mathbf{x}(\mathbf{V})$ the name of this file.	
		Abra	
		Square	
		Round	
		Half round	
		Trail Tourid	
		Trail round	
(e)	(i)	The machine shown below was used during the manufacture of the	
(e)	(i)	The machine shown below was used during the manufacture of the trophy.	
(e)	(i)	The machine shown below was used during the manufacture of the trophy. Tick (✓) the name of this machine.	
e)	(i)	The machine shown below was used during the manufacture of the trophy. Tick (✓) the name of this machine. □ Pedestal drill	
e)	(i)	The machine shown below was used during the manufacture of the trophy. Tick (✓) the name of this machine.	
(e)	(i)	The machine shown below was used during the manufacture of the trophy. Tick (✓) the name of this machine. □ Pedestal drill	
(e)	(i)	The machine shown below was used during the manufacture of the trophy. Tick (/) the name of this machine. Pedestal drill Hand drill Brace	
(e)	(i)	The machine shown below was used during the manufacture of the trophy. Tick (✓) the name of this machine. □ Pedestal drill □ Hand drill	
(e)	(i) (ii)	The machine shown below was used during the manufacture of the trophy. Tick (/) the name of this machine. Pedestal drill Hand drill Brace	
(e)		The machine shown below was used during the manufacture of the trophy. Tick (✓) the name of this machine. Pedestal drill Hand drill Brace Countersink drill	

1. (e) (continued)

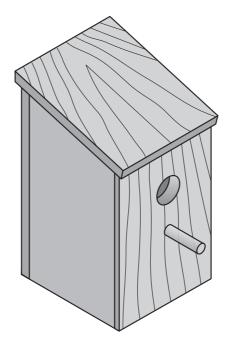

(iii) The tool shown below was used to hold the fish when drilling.Tick (✓) the name of this tool.	
☐ Engineer's vice ☐ Sash cramp ☐ Machine vice ☐ Hand vice The stages for finishing the edges of the acrylic trophy are given below in the wrong order.	1
 Polish Cross file Use wet and dry paper Draw file (i) State which stage should be completed first. (ii) State which stage should be completed last. 	1
State why the edges of the base were finished before the acrylic was bent.	1
The equipment shown below was used to heat the acrylic base. Tick (✓) the name of this piece of equipment. Oven Anvil Strip heater Forge	11
	Tick (/) the name of this tool. Engineer's vice Sash cramp Machine vice Hand vice The stages for finishing the edges of the acrylic trophy are given below in the wrong order. • Polish • Cross file • Use wet and dry paper • Draw file (i) State which stage should be completed first. State which stage should be completed last.

2.	Seven	Several stages in a design process are listed below in the wrong order.			
	Evaluation		Ideas	Brief	
	Research		Solution	Specification	
	State	the stage:			
	(i)	that begins the design	n process;		1
	(ii) when a list of what the design "must" do is produced;				
	(iii)	when a range of desig	gns is produced;		
	(iv)	when the final design	is tested.

3. A bird box is shown below.

(a) The bird box was made from a softwood.

Tick (\checkmark) the name of a softwood.

Red pine

Hardboard

Beech

Chipboard

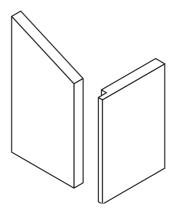

(b) (i) The joint shown below was used in the manufacture of the bird box.Tick (✓) the name of this joint.

Dowel

Housing

Lap

Mortise and Tenon

1

3. (b) (continued)

	(ii)	The tool shown was used to mark out this joint. Select the tool name from the list below.	
		Marking gauge Set square Scriber Try square	
		Tool name	1 0
	(iii)	The tool shown below was used to cut this joint.	
		Tick (✓) the name of this tool. □ Bandsaw □ Junior hacksaw □ Coping saw □ Tenon saw	1 0
	(iv)	The chisel shown below was used to remove the waste from the joint.	
		Tick (✓) the name of this chisel.	
		☐ Bevel edged	
		Gouge	
		☐ Firmer ☐ Mortise	1 0
(a)	The		U
(c)		bit shown below was used during the manufacture of the bird box. (*\sum_{\text{i}}\) the name of this tool.	
		Flat bit	
		Forstner bit	
		Countersink bit	1
		Auger bit	0

Page seven

4. A window box is shown below.

(a) Complete the cutting list shown below.

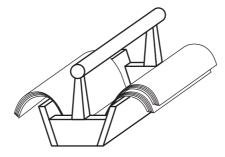

Part	Quantity	Length	Breadth	Thickness	Material
Front	1		100	12	Red Pine
Back	1	400		12	Red Pine
Sides		120	100	12	Red Pine
Base	1	400	144		Manufactured Board

	Mahogany	Plywood	Ash	Pine	1
Mar	nufactured board				0
(i)	Tick (✓) the name o □ Dowel □ Butt □ Lap		the manufactur	re of the window box.	1
(ii)	The tool shown below Tick (✓) the name o	f this tool.	nark out this jo	oint.	1
			anufacture of t	he window box.	1
	Selection (ii) (iii)	Mahogany Manufactured board	Mahogany Plywood Manufactured board	Select the manufactured board from the list below. Mahogany Plywood Ash Manufactured board (i) The joint shown below was used in the manufacture Tick (✓) the name of this joint. Dowel Butt Lap Halving (ii) The tool shown below was used to mark out this joint Tick (✓) the name of this tool. Odd leg callipers Marking gauge Scriber Rule The tool shown below was used in the manufacture of the Tick (✓) the name of this tool. Brace Hand drill Pedestal drill	Select the manufactured board from the list below. Mahogany Plywood Ash Pine Manufactured board

e) (i)	State a reason for using waterproof glue during the manufacture of the window box.	
(ii)	Describe how excess glue should be removed.	
(iii)	State one reason why the excess glue should be removed.	
	ne one type of finish that could be applied to the window box to show the iral colour of the wood.

6. A paper weight is shown below.

(a)	The paper	weight	is to	be	made	from	a	silver	coloured	metal	which	doesn't
	rust.											

Tick (\checkmark) the name of this metal.

Mild steel

Copper

Aluminium

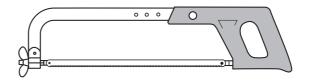

(b) The tool shown below was used during the manufacture of the paper weight.Tick (✓) the name of this tool.

Coping saw

Panel saw

Hacksaw

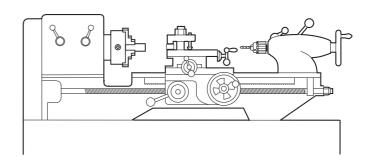

(c) The paper weight was manufactured using the machine shown below.Tick (✓) the name of this machine.

Metal lathe

Mortise machine

Wood lathe

Pedestal drill

6. (continued)

(d)	The tool	shown	below	was	used	to	add	texture	to	the	paper	weigh	t.
	Tick (✓)	the cor	rect na	me (of thi	s to	ool.						

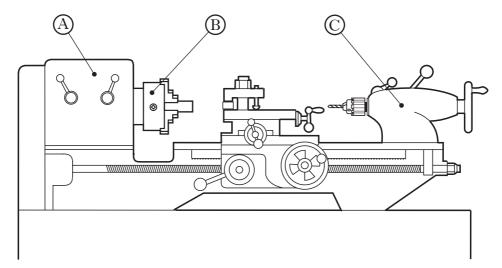

(e) Tick (\checkmark) the speed the machine should be set to when using the above tool.

(f) From the list given below, name the parts (A), (B) and (C) of the machine.

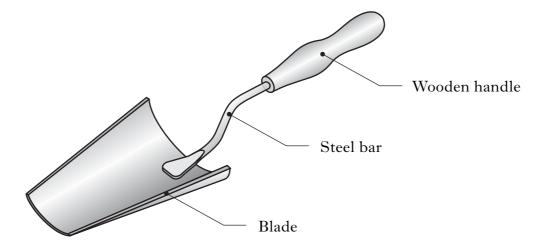

3 Jaw chuck Tail stock Head stock Tool post

Guard has been removed for clarity.

(A)			
(B)			
(C)			

7. A trowel is shown below.

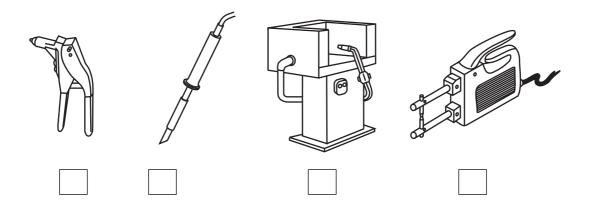

(a) The blade is made from a ferrous metal.

Tick (✓) the meaning of "ferrous metal".

- It contains iron
- It contains brass
- It contains aluminium
- ☐ It contains copper
- (b) The steel bar was heated in a forge.

Tick (\checkmark) the sketch of the forge.

7. (continued)

(c) The equipment shown below was used during the forging process.

- (i) State the name of tool (A).
- (ii) State a reason why tool (A) was used to hold the steel bar during the forging process.
- (iii) State the name of tool (B).
- (iv) Tick (✓) the name of tool (C).
 - Hide mallet
 - Claw hammer
 - Warrington hammer
 - Ball pein hammer
- (v) Goggles and heat proof gloves are worn while working at the forge. State another piece of safety clothing which you should **wear**.
