Part One: General Marking Principles for Modern Studies SG Foundation

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this Paper. These principles must be read in conjunction with the specific Marking Instructions for each question.

- (a) Marks for each candidate response must always be assigned in line with these general marking principles and the specific Marking Instructions for the relevant question. If a specific candidate response does not seem to be covered by either the principles or detailed Marking Instructions, and you are uncertain how to assess it, you must seek guidance from your Team Leader/Principal Assessor.
- (b) Marking should always be positive ie, marks should be awarded for what is correct and not deducted for errors or omissions.

GENERAL MARKING ADVICE: Modern Studies SG Foundation

The marking schemes are written to assist in determining the “minimal acceptable answer” rather than listing every possible correct and incorrect answer. The following notes are offered to support Markers in making judgements on candidates’ evidence, and apply to marking both end of unit assessments and course assessments.

1. Markers are asked to ensure that marks are entered in the correct columns. Column 1 is for KNOWLEDGE AND UNDERSTANDING and column 2 is for ENQUIRY SKILLS. Marks should be recorded in the appropriate box.
2. It is strongly emphasised that the references in the marking instructions indicating expected responses are for guidance only and **MUST NOT BE VIEWED AS PRESCRIPTIVE**. The performance of candidates is measured against the Extended Grade Related Criteria and it is against these, rather than a checklist of responses, that they should be assessed.
