The heat from the sun was unbearable, leaving the tiger exhausted and drowsy. It had not been able to catch any animals for some days. It was starting to feel faint as it prowled around the forest.

Something caught its attention. There it was! A deer was drinking greedily from the stream. This was unusual as they always move about 5 in herds. All alone, the deer would make an easy prey for the ferocious beast. Excitement soon rose in the tiger and its body grew taut in anticipation.

The tiger began to stalk its prey, waiting for the right moment to act. The deer moved around slowly, oblivious to the danger ahead and 10 paused from time to time to look around.

While the tiger was waiting to pounce on its prey, it was not aware that a hunter was right behind. He was armed with a gun and followed the tiger stealthily.

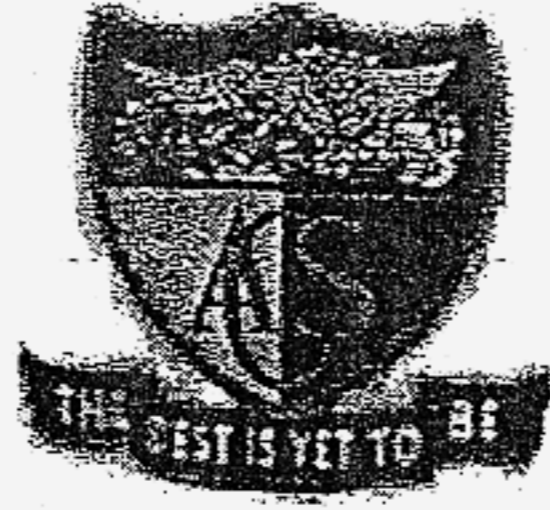

Minutes later, the tiger leapt into action and attacked the deer. It 15 held on to its prey tightly while the poor animal struggled in vain. The beast began to devour the animal when it finally stopped moving.

Cheryl is a bright student with a wonderful sense of humour. One day, when the teacher was not in class, she talked to a friend across the classroom and neglected her work. Before she knew it, her name was written on the board by the class monitor.

When the teacher returned, Cheryl was reprimanded and would 5  
be detained for five minutes during recess. Cheryl protested strongly but to no avail. She looked daggers at the class monitor and felt something brewing inside her. She decided to seek revenge.

During recess, she stayed in the classroom and waited until everyone had left. She took a bottle of medicated oil from her bag and 10  
smeared it all over one of the tables near the front of the classroom – the class monitor's table. Unknown to her, there was a pair of large round eyes watching her from the back of the classroom. Anna had forgotten her wallet and had returned to the classroom to take it.

When recess ended, the smell of medicated oil had already filled 15  
the whole classroom. Once the class monitor entered the class, he started to sneeze vigorously. What a sight! He was allergic to medicated oil and was turning red in the face. Half the class laughed till their sides ached while the other half looked suspiciously around the room. While they had to admit that their class monitor was a rather biased person, he was still their 20  
class monitor regardless, and they owed him that amount of respect.

Anna stood in the corner. Should she tell the teacher what she had seen earlier? Would the class believe her or would they take Cheryl's side?
