### Section A (20 x 3 marks)

Choose the correct answer and write its number in the brackets provided

1. A drinking glass is a non-living thing because

.

A: needs air, food and water.

B: cannot move by itself.

C: responds to changes.

D: cannot reproduce.

(1)D only (2)A and C (3)B and D (4)A, B, C and D

Which one of these plants responds to stimulus more quickly than the others?

(1) Rose plant(2) Cactus(3) Mimosa(4) Pong Pong Tree

ン

(

Y

# 3. Which one of these things cannot move on its own?

(4)

**(3)** -

4. Which of these statements is false?

(1) Non-living things cannot reproduce

(2) Living things can respond to the weather.

(3) Living things can only reproduce by laying eggs.

(4) Non-living things does not need air, food and water.

**`)** 

)

(

(

5. The fishes are swimming near the water surface because they depend on

(1) food (2) water (3) air

(4) light

6. Last year, Lina found that she could not reach the top cabinet without having to stand on a stool. This year she is able to reach it without any help. Which characteristic of living things does this show? Living things \_\_\_\_\_.

(1) respond to changes(2) grow(3) reproduce(4) die

( ...)

(

7. Study this table carefully.

Group A	Group B
Helicopter	Baby
Butterfly	Penguin
Aeroplane	Toad
X	Y

What could be X and Y?

1.

X	Y
(1) Car	Pigeon
(2) Pigeon	Lizard
(3) Lizard	Tiger
(4) Dragonfly	Housefly

8. Study the classification table below carefully.

What could be the heading for Group A and Group B?

Group A	Group B
1) Non-living things	Living things
2) Not colourful	Colourful
3) Flowers	Fruits
4) Eaten by man only.	Eaten by animals
	only

)

(

)

(

9. Which item does not belong to the group below?

papaya	hibiscus	durian	lemon	mango
(1) lemon (2) hibiscus	-			
(3) mango (4) papaya			· . <u></u>	(

10. Which animal does not reproduce by laying eggs?

- (1) A frog
- (2) A parrot
- (3) A guppy

م س (4) A mosquito

11. Which one of the statements is **FALSE** about Fish?

(1) They live in water only.

(2) They are divided into head, thorax and abdomen.

(3) Their fins help them to move around.

(4) They breathe through their gills.

)

(-)

(

- )

The animals above have been grouped according to their outer covering. Which other animal can be placed in this group?

(1) Fish(2) Lizard(3) Dog(4) Swan

www.misskoh.com

(

1)

<u>Greup A</u>	Group B	
Goldfish	Owl	
Guppy	Penguin	

Which heading would you give to Group A and B?

Group A	Group B
1) Fish	Mammal
2) Fish	Birds
3) Mammal	Insects
4) Mammal	Fish

15. A goat and a lion can be grouped together because they

(1) have the same outer covering

(2) both eat plants

(3) move by swimming

(4) both lay eggs

## 16. Which of the following <u>cannot</u> have young?

(1) A butterfly

(2) A dog

(3) A computer

(4) A hamster

( )

)

),

(

Page 7

L

14.

### 17. Which animal does not eat the food as shown in the table?

•	Animal	Plant	Animal	Plant and Animal
(1)	Chicken			✓
(2)	Hippopotamus			
(3)	Giraffe			
(4)	Lizard			

(

(

(

)

18.

X	Z
Clown Fish	Snail
Shark	Lion

The animals above have been classified according to \_\_\_\_\_

(1) their outer covering

- (2) their movement
- (3) their shape

(4) the place they live in

19. I cannot swim. I have scales and I move with my whole body. I am a

(1)goldfish	
(2) squirrel	
(3) cobra	
(4) duck	

20. What is the difference between an animal and a plant?

(1) An animal needs air but a plant does not.

(2) An animal can move but the plant cannot.

(3) A plant can make food but an animal cannot.

(4) A plant dies without water but an animal does not.
