From your chosen Dissertation Topic answer the following question:

**Identify your Research Questions and outline and justify the key research methods for your study. Include in your answer what key considerations are required for the following:**

- Section i - The Ethical Considerations for the subject and respondents you are studying in your fieldwork**
- Section ii - Your reasons for the research methods you have chosen for your subject of study**
- Section iii - The consideration of how you will meet and include the CIPD Requirements in your proposed subject in your dissertation.**

In your answer, use headings to clearly indicate the three sections of your response as outlined above.
