M.Sc. Dental Public Health: Paper 2

COURSE CODE : EPIDGD02

DATE : 06–JUN–06

TIME : 10.00

TIME ALLOWED : 3 Hours

UNIVERSITY COLLEGE LONDON

MSc EXAMINATION

FACULTY OF CLINICAL SCIENCE

DENTAL PUBLIC HEALTH II

Tuesday 6th June 2006 10.00 to 1.00

Answer THREE questions only.

1. Discuss the limitations of two well-known psychological models of behaviour change.
2. What do you understand by the term "need" for dental care? Discuss the implications of this term for assessing dental needs of child populations.
3. Outline the key features of a randomised controlled trial. Describe the limitations of this type of study design.
4. Describe the different concepts and models about the progression of chronic periodontal disease in adults. What are the implications of these concepts for assessing need for periodontal treatment?
5. *Choosing Better Oral Health* was recently published by the Department of Health in England. Outline the main recommendations in this report and describe how these could be evaluated within a Primary Care Trust.
6. Critically discuss the principles and procedures involved in screening for oral cancer.
