**Exam Questions**

**You have three hours to complete this paper.**

**You must answer TWO questions in all: answer QUESTION ONE in Section A and ONE OTHER QUESTION from Section B. Each question carries equal marks.**

**All questions should be answered using case illustrations or ethnographies where appropriate.**

**Please read the questions very carefully and be sure to answer the question asked**

## **Section A**

**All students must answer QUESTION ONE:**

1. Discuss the tensions between work and family life/planning in relation to one of the following:
  - a) Women's health
  - b) Women patients and the medical management of their health/illness
  - c) Women doctors and their careers

## **Section B**

**Answer ONE of the following questions:**

**You must answer both parts of this question:**

2.
  - (i) Describe in anthropological terms what is meant by culture.
  - (ii) Discuss how looking after patients in primary care (general practice and the community) requires cultural awareness by the practising doctor.
3. HIV and AIDS are much more than simple medical conditions. Examine and critique this statement illustrating your arguments with key ethnographies and readings where possible.
4. Discuss the claim that the anthropological concept of the gift can be extended to organ donation.

**END OF PAPER**
