Examples of Candidate Work

NCEA Level 2 – Visual Arts 2005 – AS90235

Examples of Candidate Work

Introduction

This resource contains examples of candidate work submitted in 2005 for verification of assessment for the Visual Arts Achievement Standard 90235 *Produce a body of work within design to show understanding of art-making methods and ideas*. The purpose of this resource is to assist art teachers to prepare teaching programmes and their students for assessment in 2006. The Assessment Report for this standard for 2005 is available on the NZQA website, and provides important information for Visual Arts teachers using this standard in 2006.

Examples from three school submissions have been selected to reflect the wide range of school Visual Arts programmes providing students with opportunities to succeed. The submissions selected contain examples of work that have gained Achievement, Achievement with Merit and Achievement with Excellence.

The New Zealand Qualifications Authority would like to thank the candidates who gave permission for their work to be published.

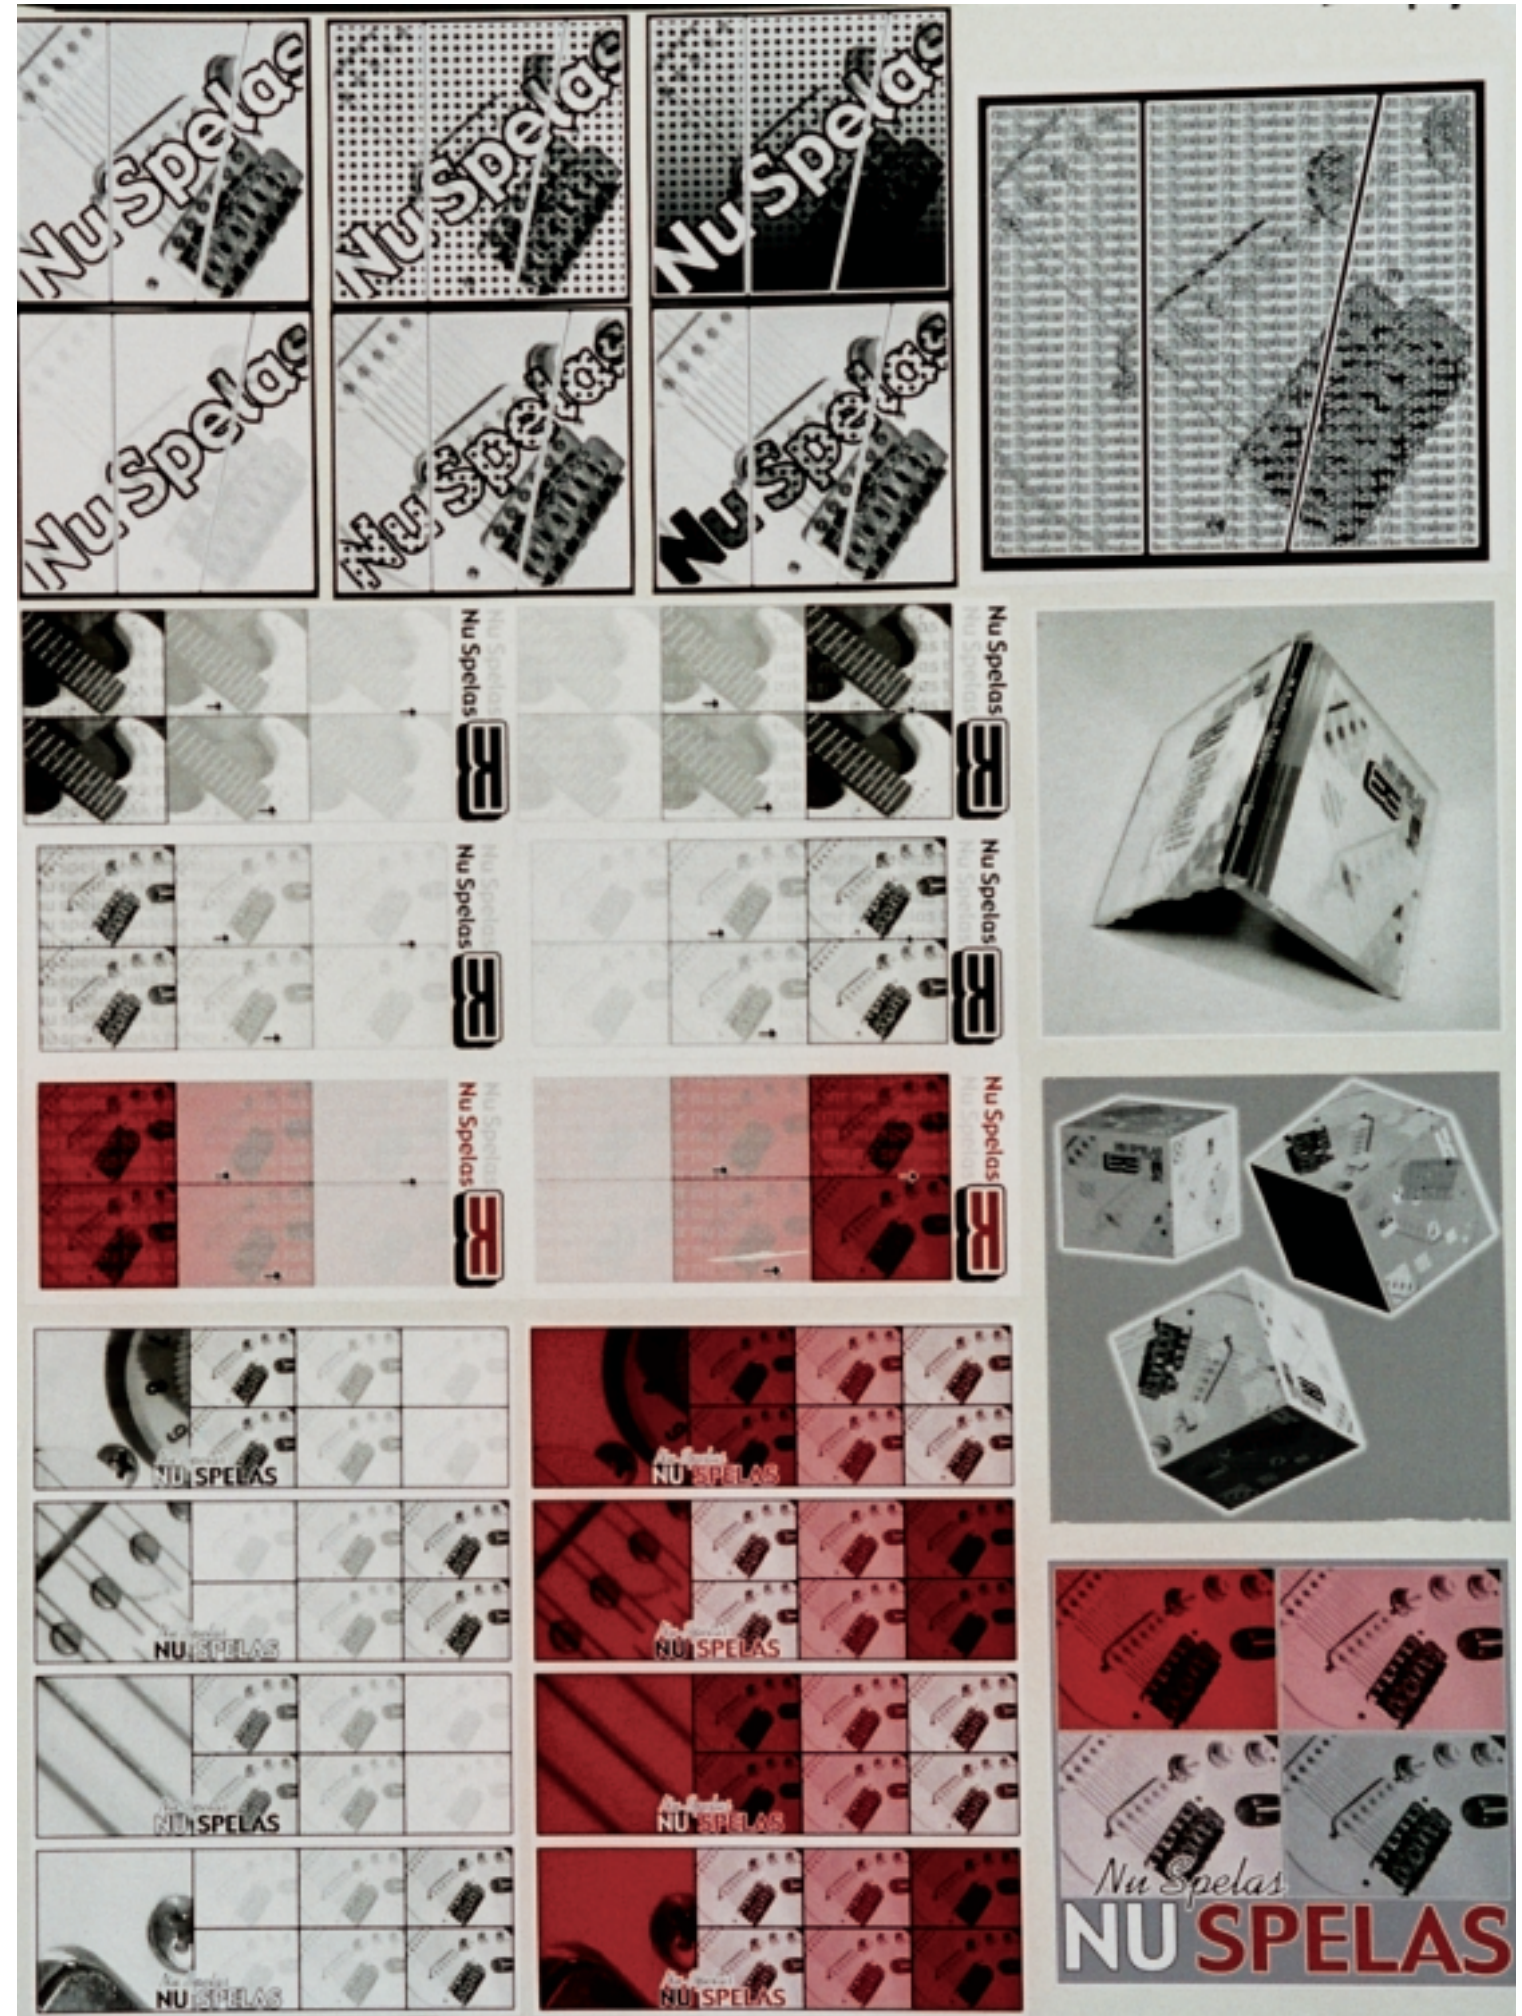

The Assessment Report for 2005 can be found at www.nzqa.govt.nz.

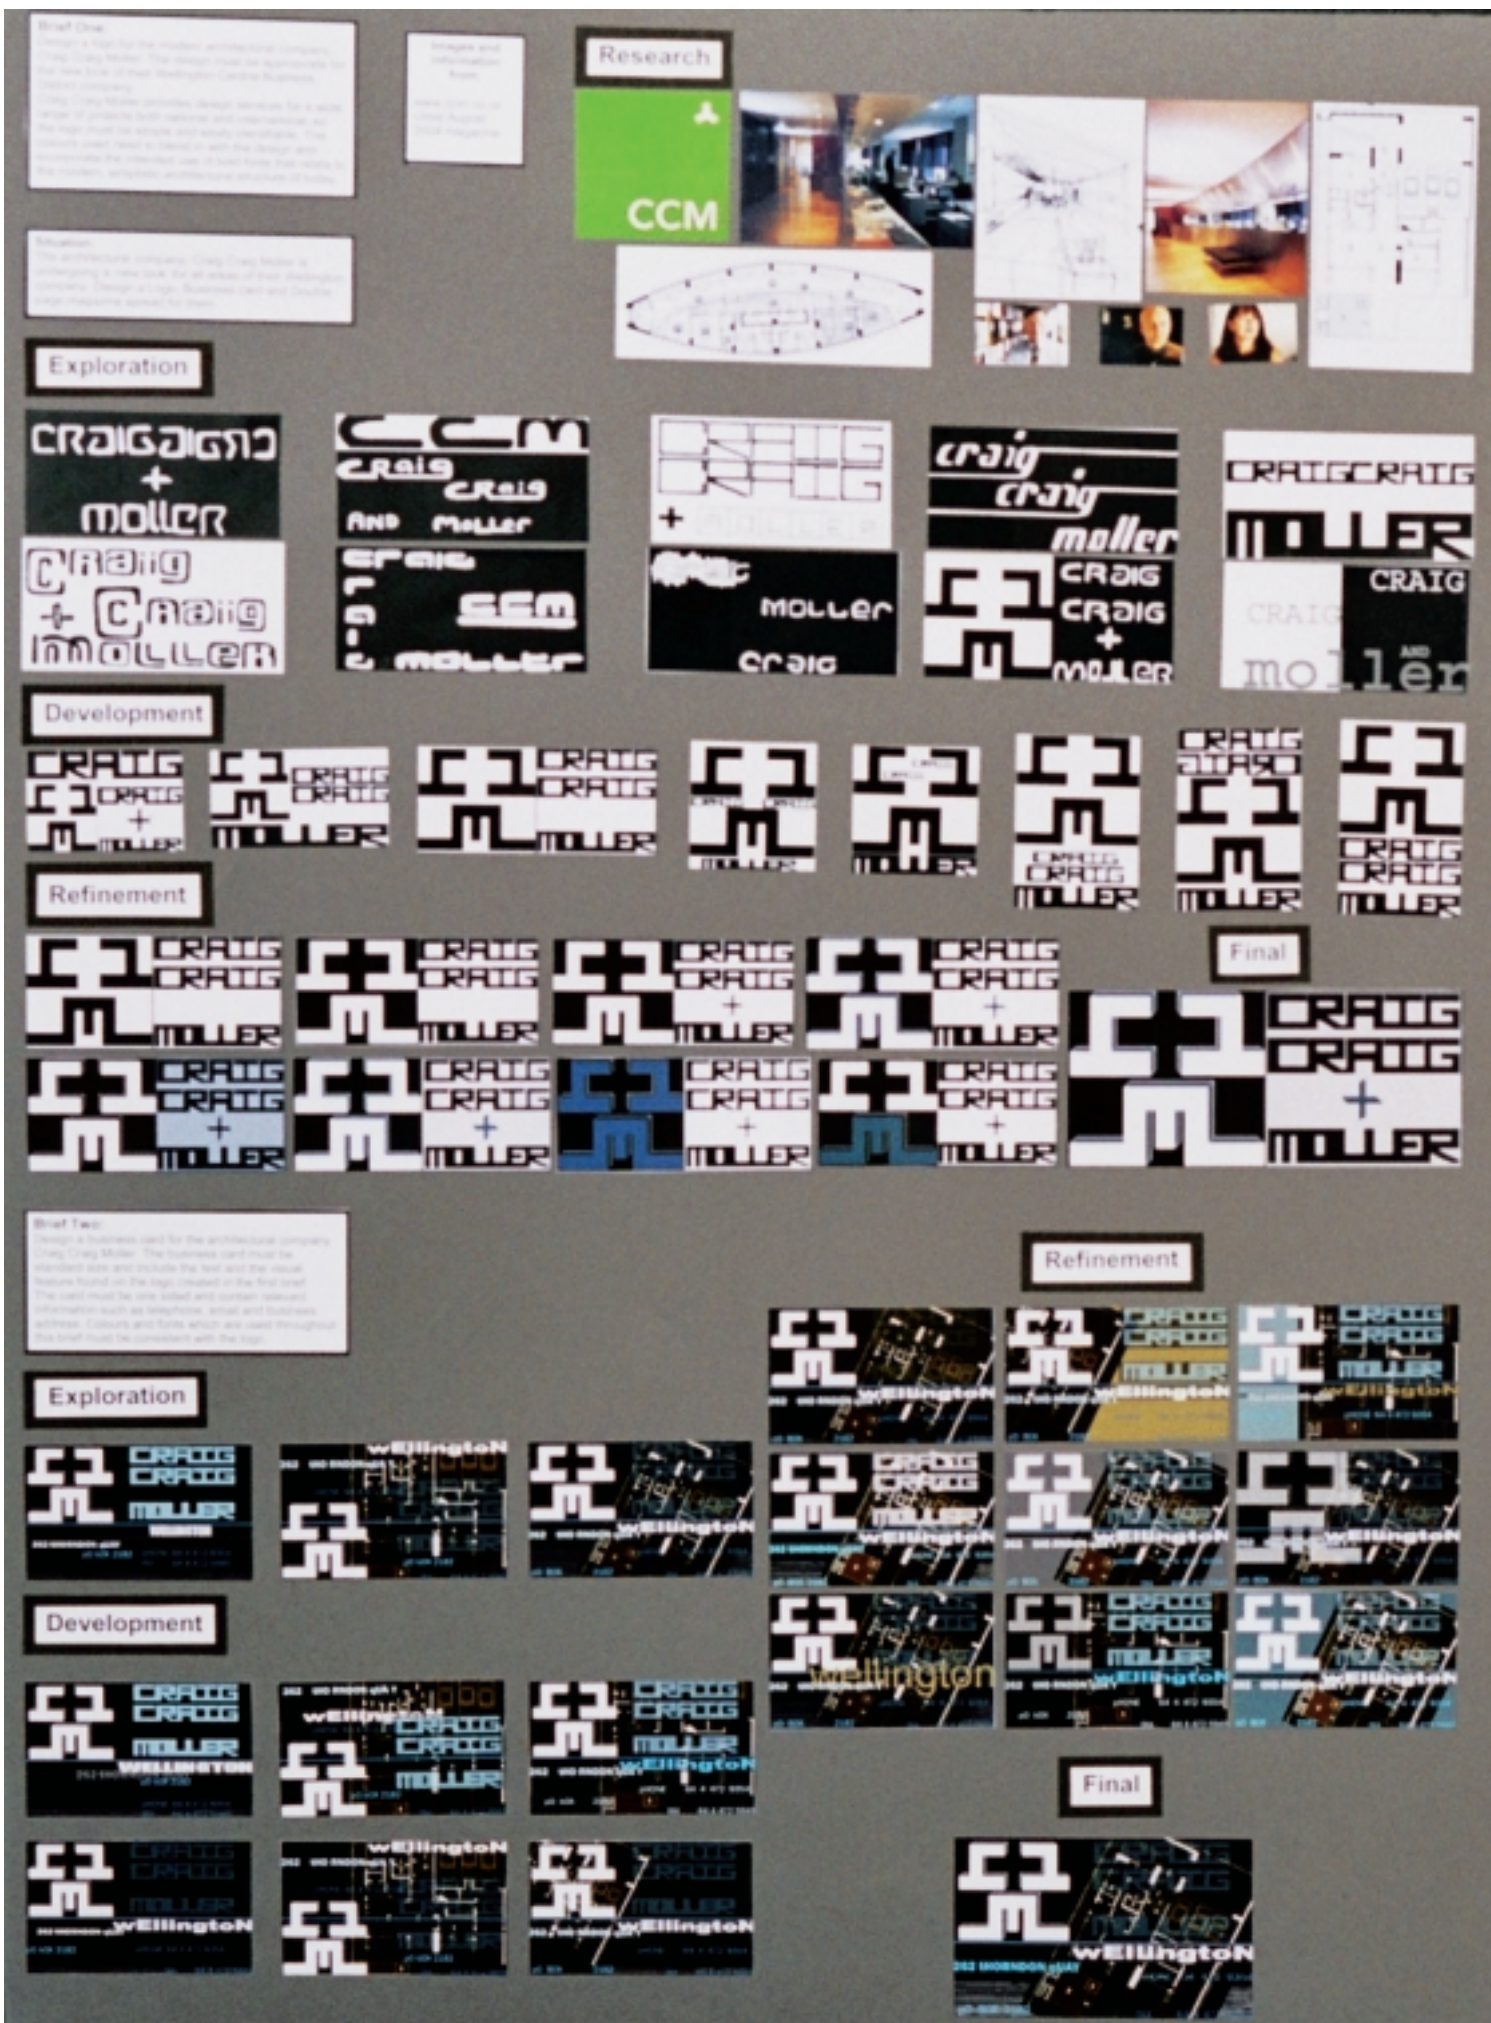

Examples of candidate work for NCEA Visual Arts external standards and New Zealand Scholarship can be purchased in poster sets (not level 2) or on CD (all levels).
